BIOGRAPHICAL SKETCH

GIBB GILCHRIST

1887-1972

Gibb Gilchrist was born at Wills Point in 1887. He attended Southwestern University at Georgetown for one year before entering the University of Texas and received a degree of civil engineering in 1909.

From 1909 to 1917, he was an employee of the Gulf, Colorado and Santa Fe Railroad, beginning as a chainman and finishing his career with the company as assistant to the chief engineer.

During World War I, Mr. Gilchrist was with the Army Corps of Engineers, returning from France in 1919 as a captain. He joined the state highway department as a resident engineer after returning from the war and rose to the position of state highway engineer in 1924. A year later he entered private practice with a firm of consulting engineers in Dallas, where he remained until 1927.

In 1928, he was again named State Highway Engineer, and from then until 1937, Mr. Gilchrist served as chief engineer for the department. Under his administration the Texas State Highway Department was reorganized and the Texas highway system made rapid growth. In recognition of his outstanding record, Gilchrist was elected president of the American Association of Highway Officials in 1935.

In 1937, Mr. Gilchrist accepted the position of dean of engineering at A&M College and in May 1944, he was appointed president of the college. When the statewide A&M College System was organized in September 1948, he was named as its first administrative head, with the title of chancellor. In 1954, Mr. Gilchrist went on modified service as chancellor emeritus, and as head of the Water Research and information Center.

Chancellor Emeritus Gilchrist was awarded honorary degrees by Austin College (D. SC., 1939), Baylor University (LL.D., 1946) and Southwestern University (LL.D., 1946). He was a member of the American Society of Civil Engineers, Texas Society for Professional Engineers, Texas State Historical Association, Philosophical Society of Texas, and the Newcomer Society. He was active in masonry and was grandmaster of the Masonic Lodge of Texas in 1951. Mr. Gilchrist died in 1972.

GIBB GILCHRIST COLLECTION

1776-1972

SCOPE AND CONTENT NOTE

Correspondence, printed material, financial documents, photographic material, literary productions, legal documents, scrapbook material, maps, plaques, and miscellaneous material (21 linear feet) created and maintained by Mr. Gibb Gilchrist document his personal and professional life.

The collection consists of three main file series: (1) Personal File; (2) Texas State Highway Department File; and (3) Texas A&M File.

The Personal File is comprised of the Gilchrist papers that do not reflect his official duties at the Texas State Highway Department or at Texas A&M. For example, the correspondence is of a personal, rather than business, nature. Likewise, the topical file contains various topics of interest to Gilchrist outside his official duties.

The Texas State Highway Department File reflects Mr. Gilchrist's tenure at that agency and also reflects the work of that agency in regards to programs, finances, publications, etc.

The Texas A&M File reflects Mr. Gilchrist's years at A&M as Dean of Engineering, President and Chancellor. It also reflects his involvement with A&M after his retirement as Chancellor.
